The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). PERVISORY PATENT EXAMINER

Continuation of 11. does NOT place the application in condition for allowance because: Applicant argues the references fail to teach converting header data as claimed. Examiner respectfully disagrees. The FMH7 is header data (Taylor: page 68 §5.7) and Taylor teaches or makes it obvious to one of ordinary skill in the art to convert header data by teaching integration of TCP/IP and SNA (Taylor: page 386 paragraph 2).

Continuation of 13. Other: In view of amendments and Applicant's arguments, see amendments and REMARKS, filed 27 June 2007, with respect to objections of Figure 1 and claims 1 - 11 and 23 - 29, have been fully considered and are persuasive. The objections of Figure 1 and objections of claims 1 - 11 and 23 - 29 have been withdrawn.

With respect to paragraph 4 of the Office Action mailed 27 February 2007, see REMARKS, filed 27 June 2007, the paragraph clarifies that the portion of the specification cited by Applicant to support amendments, see REMARKS, filed 29 November 2006, does not appear to support the amendments. It does not appear that paragraph 0056 discloses header information usable with a TCP protocol. However, it is noted that original claims 30 and 31 (received 30 June 2003) appear to include similar limitations regarding header information. Therefore, the claim amendments do not appear to constitute new matter.
